

Calf Starter Pellet

Conqueror Calf Starter pellets contain a premium mix of grains, meals and minerals for optimal growth and health in beef and dairy calves. They also contain added fibre to stimulate rumen development and Bovatec® to control coccidiosis. Calf Starter is formulated to support growth and development in calves up to eight weeks of age.

✓ INGREDIENTS

Including but not limited to, including wheat, lupins, mill mix, canola meal, faba hulls, barley screenings, calcium, sodium bicarbonate, zeolite, molafos, vitamins, minerals and Bovatec®. This stockfeed has been produced under strict quality control standard.

Product is intended for calves only. Included ingredient Bovatec® can be fatal to horses and other equids.

✓ FEEDING GUIDELINES

- Feed Calf Starter ad lib up to eight weeks of age (intake will vary based on milk feeding rates).
- Introduce access to quality hay (e.g. soft lucerne or cereal hay) 10 – 14 days after weaning and transition to Conqueror Calf Grower.
- Free choice hay must be good quality.
- Ensure clean water is available at all times.
- Best used within six months of the date of manufacture.

✓ MINIMUM ANALYSIS (DM)

Min Crude Protein	20%
Metabolisable Energy	11.8 MJ/kg
