

Sheep & Cattle Pellet

Conqueror Sheep and Cattle Pellets are a specifically formulated ration, designed to maintain the condition of cattle and sheep in feeding situations or when pasture quality and quantity is lacking. They are formulated with a mix of grains, legumes, fibre, vitamins and minerals to provide a balanced supplementary feed and reduce the risks associated with selectivity. These pellets provide a premium source of energy and protein necessary for optimal growth and a safe introductory diet for livestock entering feedlot conditions.

✓ INGREDIENTS

Including but not limited to, a selection of high quality raw materials such as wheat, triticale, barley, lupins, canola meal, mill mix, faba hulls, oat hulls, calcium, magnesium oxide, sodium bicarbonate, vitamins, minerals, zeolite and molafos. This stockfeed has been produced under strict quality control standards.

✓ FEEDING GUIDELINES

- Sheep: 300 – 500 g/day rate (per head)
- Cattle: 3 – 6kg/day rate (per head)
- Ensure roughage is available in the form of pasture or hay
- Feeding rates for adult livestock will vary with available paddock feed and/or condition of animal
- Ensure clean water is available at all times
- Best used within six months of the date of manufacture

✓ MINIMUM ANALYSIS (DM)

Min Crude Protein	14%
Metabolisable Energy	12.5 MJ/kg
Neutral Detergent Fibre	22.5%
Min Crude Fat	2.1%
Calcium	0.84%
Phosphorus	0.46%
Magnesium	0.20%

✓ BULK

✓ BULKA BAGS

✓ 20KG BAGS
